A New Strategy For St Mary's Park

Edition 1. Summer 2007

Welcome to SMP Regen Update

This is the first edition in a series of newsletters to be published on developing a new "strategy" for improving St Mary's Park.

The strategy will include proposals for identifying new homes, new community facilities, jobs, improving the infrastructure to include for example transport and health services, and how to tackle issues of bad behaviour.

In this edition find out how you can be involved in shaping the future of St Mary's Park.

Why a new strategy for St Mary's Park ?

Over the decades St Mary's Park has become isolated from the rest of Limerick and has not enjoyed the same level of improvements in the quality of life as other parts of the City.

Developing a new strategy is aimed at closing that gap by improving the physical environment, social well being, and economic prosperity in St Mary's Park.

How are we approaching this task ?

We believe in consulting widely with residents and other key stakeholders who have detailed knowledge and understanding of the range of issues which need to be tackled on the ground.

We will also look at other cities to decide how best to continue to improve St Mary's Park and make it a more integral part of Limerick's community attraction.

Who is preparing the Strategy ?

A dedicated team has been drawn together by Limerick City Council to direct the work. LCC are assisted by Tom McNamara & Partners Project Management (Part of the Erinaceous Group) and other specialist organisations.

How do I get involved ?
